## PERMANENT CURE

FOR Catarrh of the Stomach and All Stomach Disorders.

Testimony of Mr. Myers who suffered for three years.

SIX NOTABLE PHYSICIANS FAILED.

VIN-SENG Cured Him Quickly and Permanently.

In April, 1903, Mr. Myers, in writing of his cure, says: "For three years I have been troubled with a very bad case of Catarrh of the Stomach; I could not retain food on my stomach. Often I had to vomit two or three times in one day. This was very weakening and debilitating. I have been treated by six different doctors, but never received any benefit whatever. A friend persuaded me to try your Vin-Seng Tonic, and I can truthfully say that I believe it is the best preparation I ever heard of. I have no vomiting spells at all now, and my bowels move regularly. My food tastes better than it has for over three years. I have no more pain whatever. I have treated with there are given the names of five Topeka physicians and one of Osaage City. I want to recommend Vin-Seng to every one suffering from Catarrh or Stomach Trouble. Vin-Seng is better than a doctor."

## FOUR MONTHS LATER.

Mr. Myers writes again of his wonderful cure. Letter dated August 13, 1903. "I have already told you of my wonderful cure after years of suffering. I want to say more. On March 14 I began the use of Vin-Seng, and on March 22 I had my last vomiting spell. Never before in the last three years have I gone as long as three days without vomiting. My medicine cured all that for me, and today I am twenty pounds heavier than I was a year ago and I feel as well as I ever did in my life. I really feel twenty pounds better, too. I tell every one I see of the virtues of your Vin-Seng Tonic, and would not want to fail for anything in the world. I have not taken any for some time, and yet I am not the least bit sick. I know I am positively cured. I hope you will have a good sale for this medicine. It deserves it."

The address of Mr. Myers is 1429 Topeka avenue.

## POLICE JOTTINGS.

The Court Takes a Vacation Until Monday.

Trip Made on Search of a Burglar.

## GIRLS WERE SCARED.

Heard Strange Noises and Sent for Police.

Young Woman Takes Drugs With Suicidal Intent.

The court has taken a vacation on boozing cases, and there will be no more doing in the 100 and 30 days business until Monday.

Last night the gendarmes made a hasty trip to 917 Taylor street. The trip was based on information that a bold bad burglar was frisking the premises at said number, and that a delegation of neighbors were herding him in the house pending the arrival of the coppers. When the party arrived they dashed into the bungalow and made a thorough search. They found no burglar, but unmistakable evidence that he had been there. The entire house was searched, even the ice chest and oven were examined by the police.

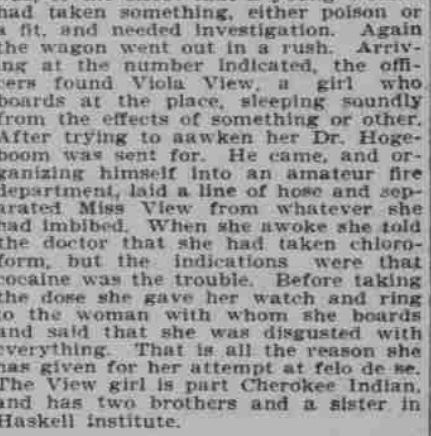

A search for burglars.

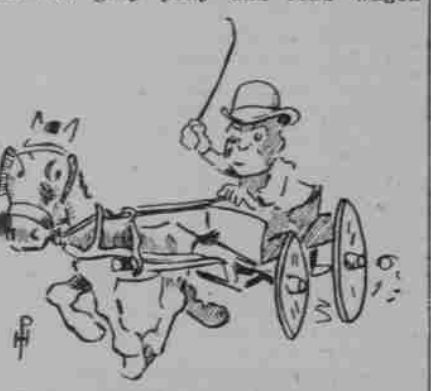

but no robber materialized. The residence is that of Deputy U. S. Marshal Knapp, who is away on a vacation. The house was occupied at the time of the attempted burglary by four young ladies, relatives of Mr. Knapp, who had been visiting a neighbor next door. When they came home about 9:30 they heard a stranger wandering within. Nothing was missing except the nerve of the young ladies.

The wagon had barely returned from the West side when there came a call from South Topeka, 122 Kansas avenue, to the effect that a young woman had taken something, either poison or a fit, and needed investigation. Again the wagon went out in a rush. Arriving at the number indicated, the officers found Viola View, a girl who boards at the place, sleeping soundly from the effects of something or other. After trying to awaken her Dr. Hogeboom was sent for. He came, and organizing himself into an amateur first aid department, laid a line of hose and separated Miss View from whatever she had imbibed. When she awoke she told the doctor that she had taken chloroform, but the indications were that 70,000 drops of the stuff would not have been enough to put her to sleep. The view girl is part Cherokee Indian, and has two brothers and a sister in Haskell institute.

Last night some depraved cuss stole Neut Hansen's horse and buggy. Neut Hansen lives on Sixth street, and the horse was taken down on Crane street, and left his faithful gray pony and road wagon

attached to a post nearby. The evil minded one, who ever he may be, came along and abducted the nag and flew the coop. The city and county officers will assist Mr. Hansen in the search for the rig. The clue was stolen with the horse.

The police are making an effort to-day to have A. A. Rubin, son of Dr. A. Rubin, who has resided in Topeka many years, admitted to the county poor house. He is a printer, but is afflicted with paralysis and alcoholism and unable to work at his trade.

## HER MAIDEN PLUNGE.

The Battleship Pennsylvania Is Launched at Cramp's.

Philadelphia, Pa., Aug. 22.—An occasion which will be memorable in the history of this state transpired today when the giant battleship, the Pennsylvania, named by the daughter of the state's senior senator and political leader, was launched at the yards of the William Cramp & Sons, of Philadelphia. The maiden plunge of the formidable addition to the United States navy has witnessed by one of the largest and most distinguished assemblages that has ever gathered at Cramp's ship yards. More favorable weather could not have been desired and the flag bedecked sea fighter, gliding down the ways greeted by the acclamations of thousands of spectators and the shrill blasts of the myriad of river craft was an inspiring scene.

Under the towering prow of the Pennsylvania was erected a platform from which 2,000 specially invited guests witnessed the launching. From the main stand rose a smaller platform upon which stood the christening party, including Miss Coral Quay, daughter of United States Senator Quay, the ship's sponsor; Senators Quay and Penrose; Governor Pennypacker, Mayor Weaver, Rear Admiral Sigsbee, United States navy; Rear Admiral Schenck, U. S. navy; retired; Charles S. Cramp, Edwin S. Cramp and a number of ladies.

On the mainstand were assembled the heads of the various navy departments, bureau, Captain Alexander Routledge, Japanese naval attaché, Cheikh Bey, Turkish minister to the United States and Lieutenant Commander Sabir Bey and Lieutenant Ali Bey of the Ottoman navy.

After the launching the guests were entertained at luncheon.

The Pennsylvania is powered with a twin screw, vertical triple expansion engines and boilers which are required to develop a speed of 22 knots an hour for four hours. The ship is estimated to develop a collective indicated horse power of 23,000. The complete price for the hull and machinery of the warship is \$3,750,000.

## VILLAGES BURNED.

Adrianople Insurrection Is Spreading Eastward.

Constantinople, Aug. 22.—The insurrection in the vilayet of Adrianople, which started in the sub-division of Kirk-Kilisse, 32 miles from Adrianople in the Balkans, in the evening of the 19th, have been burned by insurgents in the neighborhood of Inadioli off which place the Russian squadron is anchored, and urgent demands have been sent to Adrianople for reinforcements.

The proposal to send the Austrian and Russian military attaches to Monastir to gather facts about the insurrection has been refused as the present situation is not considered opportune.

British and French warships in Turkish waters are in readiness to proceed to Salonica in the event of it being necessary for them to do so.

The contract with the Krupp company for quick firing guns, recently signed and involving an expenditure of £1,000,000, has been completely nullified by the present trouble in Macedonia. Negotiations on the subject have been proceeding for several years. It is probable, however, that the conclusion of the arrangement was hastened by the possibility of international trouble.

Moussa Bey, the notorious Kurdish chief, who was responsible for many of the Armenian outrages and who escaped last month with several other Kurdish chiefs from Medina, Arabia, where they had been living in exile, has been captured by the British and taken to Medina.

The British vice consul at Bittles, Asiatic Turkey, reports an improving situation in the vilayet of Adana, and that the Kurds and Armenians are now on a friendly footing.

Suddenly the mulatto blossomed out as a man of wealth. He bought a fine house, a provision store, a rum shop and horses and mules galore. Everybody wondered where he got his money, but only one man, another mulatto, a mulatto, had sense enough to figure the matter out.

"See here," said the second mulatto, "I've taken a fancy to that old ruin of yours. Kind of picturesque, isn't it? I'll give you \$500 for it."

The first mulatto jumped at the offer. As soon as the deal had been effected the purchaser had the house carefully pulled down, brick by brick, and the foundation dug up. As the result he found nine small ironbound chests filled with treasure. They contained a great deal of French gold and silver coin of the eighteenth century, gold and silver plate, jewelry, church ornaments and other valuables. Altogether the nine chests were valued at over \$50,000.

When the first owner heard of it he was furious. It then came out that one day by accident he had found a similar chest hidden in the wall-scooting of a hall and had realized upon it. It never struck him that there might be more behind, so he gladly sold the house, hardly imagining that it was an empty shell, and he had extracted the kernel. He raved like a madman when he heard the news, but the other mulatto, to possess political pull and soon having him thrown into jail.—New York Sun.

## LETTER FROM MISS KELLY.

Tells About Her Pilgrimage in the Klondike.

H. B. Kelly received a message today from his daughter, Miss Emma Kelly, who is in the Klondike gold fields. The message is supposed to have come out of the country by the wireless system which was to be installed there. The message is dated Chena, Alaska, August 18 and Ashcroft August 21. The message reads: "Am well. This has every appearance of a good camp. My claim certainly very promising."

Miss Kelly's message came from the center of the new Tanana gold fields. On July 23 she wrote from Birch Creek that she was going to the Tanana Hills and started back the next day to walk the 125 miles. Before starting a man walked from Pedro to Birch Creek 125 miles. He informed Miss Kelly that he had "jumped" got off claim and tried to persuade her to relinquish her rights. She refused and informed him that she would fight the case through the courts if he did not move off the claim. He started back the next day to walk the 125 miles. She waited for the first pack train. Miss Kelly went to the Klondike country May 27 and expects to return September 15.

## HUNTERS IN TROUBLE.

Topeka Men Face Warrants for Careless Shooting.

Plainville, Kan., Aug. 22.—Warrants are out for O. A. Kerns, L. D. Hazen, Bob Miller and O. Perkins, all of Topeka. These men supplied with guns, dogs and traps, got off claim and tried to persuade her to relinquish her rights. She refused and informed him that she would fight the case through the courts if he did not move off the claim. He started back the next day to walk the 125 miles. She waited for the first pack train. Miss Kelly went to the Klondike country May 27 and expects to return September 15.

Later, the foreman came to Plainville, informed Mr. Shaw of the occurrence. Mr. Shaw telegraphed to Stockton for the county attorney, who arrived to find the Topeka crowd had taken the train for the west.

If they return Mr. Shaw promises to have them arrested.

Mr. Shaw has no objection to allowing hunters on his ranch if they behave properly but he is opposed to a crowd taking possession of the ranch, and shooting and cursing and showing fight as this crowd did, and that too, without any cause.
